DETAILED ACTION

Claims 16 and 36 are currently pending in the instant application. Claims 16 and 36 are allowable over the prior art of record.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 31 March 2005 has been entered.

Inventorship

In view of the papers filed 31 March 2005, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(c). The inventorship of this application has been changed by adding the following inventors:

1. Steven Gerard Blanchard
2. Steven A. Kliwer
3. Jurgen M. Lehmann
4. Derek M. Parks
5. Julie Beth Stimmel

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Please replace the first paragraph on page one of the specification with the following paragraph to insert the patent number of the prior copending application.

--This application is a continuation of Application No. 09/868,397 filed June 18, 2001, now Patent No. 6,639,078, which is a United States National Phase Application of International Application No. PCT/US99/30947 filed December 22, 1999, which claims priority from Provisional Application NO. 60/135,097 filed December 23, 1998.--

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to a method of lowering serum triglycerides in a mammal comprising administering to a mammal in need thereof an effective amount of the formula as found in claim 36. The present specification provides enablement for the lowering of serum triglycerides in a mammal by the disclosure that the compounds recited in the claims

Art Unit: 1626

are FXR agonists and that administration of such compounds can reduce serum triglyceride levels in mammals. Furthermore, example 5 provides support for the lowering of serum triglycerides in mammal, see example 5 (pages 25-28, particularly page 28, lines 4-10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
